ABOUT ME

Strong foundation in programming, problem-solving, and software development, with proficiency in Python and web technologies. Experienced in building full-stack applications using Django, with a focus on clean, scalable, and maintainable code. Passionate about creating innovative solutions and contributing to impactful projects within collaborative, fast-paced environments. Quick learner with a solid grasp of data structures, algorithms, and system design principles. Eager to take on new challenges and continually grow as a software engineer.

EDUCATION

2021 - 2025	BS Computer Science
GCUF	Focused on programming, software development, data structures, and databases. CGPA 3.65 / 4.00
2019 - 2021	FSC Pre-Engineering
Roomi Science College	Specialized in Mathematics, Physics, and Chemistry. Marks 768 / 1100

EXPERIENCE

May 2023 - Dec 2023	Software Developer (Internship)
Next Gen Tech	Gained practical experience with the fundamentals of HTML, CSS, and Python, and worked hands-on with C# and ASP.NET in a collaborative development environment. Contributed to project development tasks and actively participated in team collaboration, enhancing both technical and communication skills.
Jan 2024-Present	Full Stack Developer
Next Gen Tech	Developed and maintained scalable web applications using Django, Python, and PostgreSQL. Designed and implemented RESTful APIs with Django REST Framework for seamless integration with React-based frontends.

SKILLS

• HTML	<div></div>	• JavaScript (vanilla JS)	<div></div>
• CSS	<div></div>	• Bootstrap	<div></div>
• Python	<div></div>	• Django	<div></div>
• SQL	<div></div>	• JQuery (AJAX)	<div></div>
• Version Control	<div></div>	• ASP.net	<div></div>
• C#	<div></div>		

LANGUAGES

• English	<div></div>	Urdu	<div></div>
