## ABOUT ME

Strong foundation in programming, problem-solving, and software development, with proficiency in Python and web technologies. Experienced in building full-stack applications using Django, with a focus on clean, scalable, and maintainable code. Passionate about creating innovative solutions and contributing to impactful projects within collaborative, fast-paced environments. Quick learner with a solid grasp of data structures, algorithms, and system design principles. Eager to take on new challenges and continually grow as a software engineer.

## EDUCATION

2021 - 2025	<b>BS Computer Science</b>
GCUF	Focused on programming, software development, data structures, and databases. CGPA 3.65 / 4.00
2019 - 2021	<b>FSC Pre-Engineering</b>
Roomi Science College	Specialized in Mathematics, Physics, and Chemistry. Marks 768 / 1100

## EXPERIENCE

April 2024 - Nov 2023	<b>Software Developer (Internship)</b>
Next Gen Tech	Gained practical experience with the fundamentals of HTML, CSS, and Python, and worked hands-on with Django and Rest Framework in a collaborative development environment. Contributed to project development tasks and actively participated in team collaboration, enhancing both technical and communication skills.
Dec 2024-Present	<b>Full Stack Developer</b>
Next Gen Tech	Developed and maintained scalable web applications using Django, Python, and PostgreSQL. Designed and implemented RESTful APIs with Django REST Framework for seamless integration with React-based frontends.

## SKILLS

• HTML	<div></div>	• JavaScript (vanilla JS)	<div></div>
• CSS	<div></div>	• Bootstrap	<div></div>
• Python	<div></div>	• Django	<div></div>
• Version Control	<div></div>	• JQuery (AJAX)	<div></div>

## LANGUAGES

• English	<div></div>	Urdu	<div></div>
-----------	-------------	------	-------------
